Folding ramps

This spacious ramp features a minimalist and lightweight design, ideal for supporting heavy loads. With a load capacity of up to 272 kg, it is perfect for use with electric wheelchairs and scooters. Its design allows it to be easily folded in half, reducing clutter during storage. In addition, it is equipped with a handle that makes it easy to place and carry, making it as comfortable to carry as a suitcase.

Maximum extension length	182 cm
Total transverse dimension	72 cm
Channel width	71 cm
Height of side walls	3.5 cm
Transportable weight	272 kg
Weight (per pair)	16 kg
