

■ AURA

Folding aluminium wheelchair

Made of painted aluminium with a tubular frame with a circular cross-section. The armrests are folding, removable and height-adjustable with an interlocking system. The footrests are made of plastic with tibia-ankle adjustment and equipped with heel straps. The wheelchair is equipped with removable rear wheels. These are available in two sizes: small ø300 and large ø600.

In addition, the device is equipped with rear manoeuvring wheels that are applied when the rear wheels are pulled out to reach narrow areas.
