

GILDA 3 LIFT

Elevating armchair with 3 motors

The GILDA 3 LIFT electric armchair represents excellence in terms of mobility and comfort. Equipped with three independent motors, it offers customisable adjustments: one for foot tilt, one for backrest adjustment to facilitate lifting, and a third to raise the entire chair, assisting the user in a sitting or lying position. Designed for accessibility, it has removable armrests and headrests, and four manoeuvrable wheels for easy transfer.

The GILDA 3 LIFT armchair is a class 1 medical device in compliance with Regulation 2017/745 as amended.

NEW

Standard handle: steel handle that allows for greater manoeuvrability when moving the chair.

VERSATILITY

Disassembly of the side parts allows the user to move from the armchair to the bed, or wheelchair, etc. The removable armrests also allow the armchair to be placed under the dining table

MAXIMUM ACCESSIBILITY

The GILDA 3 LIFT chair offers easily removable armrests and headrests, making transfers to and from the chair simple and safe, eliminating barriers for those with mobility difficulties

■ REMOVABLE SIDE HEADRESTS

■ PULL-OUT ARMRESTS

■ ROLLER SYSTEM

MOBILITY AND SECURITY

Equipped with four sturdy wheels, with two rear swivel wheels and a parking brake, the GILDA 3 LIFT ensures smooth and stable movement within the home environment

COMPLIANCE AND RELIABILITY

Qualified as a Class 1 medical device, the chair meets the standards of Regulation 2017/745, offering comfort and safety for reliable daily use and complying with regulations

TAILOR-MADE COMFORT

With its three independent motors, it allows precise adjustment of feet, backrest and height, offering customised comfort and support for optimal posture, adapting to the user's every need
