

LG 2004

Stairway climber with tracks

Technological innovation, patient approach and attention to aesthetic details have over the years determined the success of the LG2004 stairway climber. Today, the new version has all the features developed in eight years of continuous product design and evolution. Unparalleled ease of use, thanks to the patented manoeuvring system that allows the stairway climber to turn on itself and small spaces effortlessly.

Reliability, thanks to a weight and mechanical management that allows significant energy savings and longer autonomy.

All innovations in one product to make everyday life easier for non-ambulatory patients.

■ HEIGHT-ADJUSTABLE HEADREST AND PADDED BACKREST

The new height-adjustable and padded double headrest allows the patient maximum comfort

■ SPACE-SAVING WHEELCHAIR COUPLING

New folding hooks have been introduced to reduce the footprint of the stairway climber

■ SEAT BELT

Length min 84 cm, max 162 cm

■ LED FOR BALANCE POINT

■ SPACE-SAVING WHEELCHAIR SUPPORTS

■ HEIGHT-ADJUSTABLE HEADREST

Height adjustment 15 cm

■ SPACE-SAVING UPPER WHEELCHAIR COUPLING

Coupling extension from 39 cm to 55 cm

■ SPACE-SAVING WHEELCHAIR SUPPORTS

Total width of wheelchair support 66 cm

■ UNLOCKING THE DRAWBAR

To facilitate wheelchair attachment.
The drawbar rises easily and effortlessly.
A new top-down release system, which
allows the user to dock the wheelchair
effortlessly and without foot movement

■ SAFETY RING

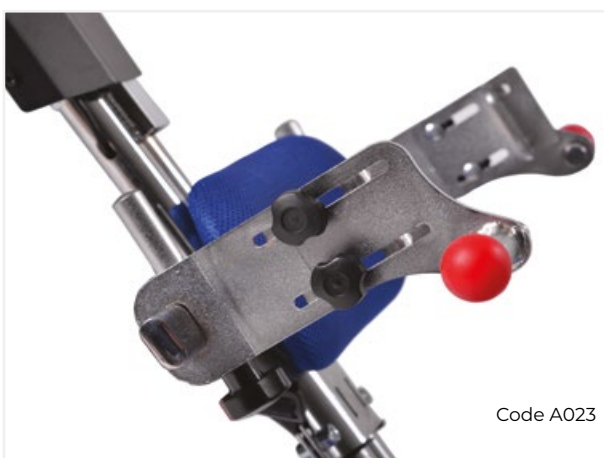

Mechanical lock that prevents machine
operation if not properly closed

Code A009

■ ANTI-TIPPING WHEEL FOR STAIRWAY CLIMBER WITH RAMPS

The anti-tipping wheel is recommended in combination with the stairway climber with ramps model LG2004/150/A008

Code A023

■ DEPTH-ADJUSTABLE WHEELCHAIR COUPLING

Adjustment min 16 cm, max 24 cm

Code A010

■ FOOTBOARD EXTENSIONS FOR OVERSIZE WHEELCHAIRS

Total width of wheelchair support 100 cm

■ SAFETY RELEASE

Manual handling of the 4 lifting wheels and tracks in an emergency

■ WHEELCHAIR RUNNERS WITH
REAR WHEELS Ø 300 (12")
CODE A006

ROTATES ON ITSELF EASILY AND WITHOUT EFFORT

The LG2004 stairway climber, and the entire series, has an unparalleled ease of use thanks to the patented electric lifting of the 4 manoeuvring wheels, which allows the stairway climber to be effortlessly rotated on itself and in small spaces.

Total weight	58 kg
Machine body weight	46 kg
Drawbar weight	12 kg
Maximum overall dimensions	144x67x99 cm
Motor power	300 W
Battery charger power consumption	80 W
Charger power supply	100-240 V
Maximum transportable weight	130 kg - (optional 150 kg)
Travelling autonomy	540 steps (with 85 kg passenger)
Autonomy with reserve indicator	80 steps
Minimum stair width	77 cm
Minimum manoeuvring space on L-shaped landings	98x98 cm
Minimum manoeuvring space on U-shaped landings	98x170 cm
Maximum inclination	70% - 35°
Temperature of use	0° - 40°
Storage temperature with packaging (dry environment)	-10° - 50°
Maximum speed	15 Steps per minute
Packaging size	116x60x43h cm

The LG2004 stairway climber, and the entire series of stairway climber with tracks, is only suitable for straight stairs
