

ULISSE EL 150 CI

Folding electric lifter with adjustable base

With a **load capacity of 150 kg**, the Ulysses EL 150_CI electric lifter features a solid steel construction. The pedal-adjustable base ensures versatility, supported by four swivel castors, two of which have brakes. The lifter is operated by an electric actuator, controlled by a control unit and powered by lead batteries, with an option of manual handling for emergencies. Including standard head harness, model M028/C.
